

Committee, showing at least the date of packing, the variety, and the outlet category of the dates. The combination of letters or numbers, or both, imprinted on the containers shall differ from those of any other lot coded within a 3-year period.

§ 987.104 Major marketing promotion.

A major marketing promotion program is one requiring the expenditure of more than \$500 of Committee funds.

[43 FR 28435, June 30, 1978]

§ 987.105 Whole equivalent of pitted dates.

For the purposes of this part, the whole date equivalent weight of pitted dates shall be determined by dividing the weight of the pitted dates by 0.83.

[53 FR 39226, Oct. 6, 1988]

IDENTIFICATION AND OUTLET
SPECIFICATIONS

§ 987.112 Identification of dates.

(a) *General.* Prior to applying the markings required by this section, each handler shall remove or delete from each container all former identifying marks which conflict with those applicable to the dates currently in the container. Dates of each outlet category shall be held, stored, or shipped in a manner to preserve their identity. Except as provided in paragraph (d) of this section, the markings on the containers shall be not less than five-sixteenths ($\frac{5}{16}$) inch in height on containers exceeding 5 pounds net weight and not less than one-eighth ($\frac{1}{8}$) inch in height on smaller containers. All markings shall be legible.

(b) *DAC dates.* Each handler shall mark every shipping or storage container (excluding subcontainers) of DAC dates with his name or that of the distributor for whom the handler is packing, and the lot number. Under the supervision of the inspection service every container shall be marked with the date of inspection, the name or insignia of the inspection service, and the letters "DAC".

(c) *FP dates.* Each handler shall mark every shipping or storage container (excluding subcontainers) of FP dates with his name or that of the distribu-

tor for whom the handler is packing, and the lot number. Under the supervision of the inspection service every container shall be marked with the date of inspection, the name or insignia of the inspection service, and the letters "FP".

(d) *Export dates.* Each handler shall mark every shipping or storage container (excluding subcontainers) of Export dates with his name or that of the exporting firm, and the lot number. If the dates, including fieldrun dates with cull dates removed, are certified as meeting the grade and size requirements for export to approved countries other than Mexico, the containers shall be marked "Export". Dry dates for processing packed for shipment to approved countries shall be marked "Export Dry". Dates packed for export to Mexico shall be marked "Export Mexico". However, "Export Mexico" shall be in letters not less than three-fourths ($\frac{3}{4}$) inch in height on containers exceeding 5 pounds net weight, and not less than one-eighth ($\frac{1}{8}$) inch in height on smaller containers. DAC dates and FP dates, marked pursuant to paragraphs (b) and (c), respectively, of this section, may be exported without change of marking.

(e) *Product and utility dates.* Each handler shall mark every shipping or storage container (excluding subcontainers) of Product dates, or Utility dates when approved for use in products, with the lot number and, if for shipment outside the area of production, with the word "Product" or "Utility", as applicable. Whenever a handler, or an approved date product manufacturer, utilizes a procedure that maintains the identity of the lot and assures that the dates will be used in products or exported, the Committee may waive the requirements of this paragraph for that lot.

(f) *Unidentified dates.* If a handler loses the identity of any lot of dates previously inspected and certified as marketable dates, the certification as to such lot shall be void.

[43 FR 28436, June 30, 1978]

§ 987.112a Grade, size, and container requirements for each outlet category.

(a) In lieu of the minimum standards prescribed in § 987.39, the following standards are prescribed as the minimum grades and sizes for marketable dates to be handled in the applicable outlets. These standards shall continue in effect irrespective of whether the season average price to producers for dates is or is not in excess of the parity level specified in section 2(1) of the act.

(b) *DAC dates.* (1) All varieties of DAC dates may be handled in the United States, Canada, or any other outlet established for dates of lesser grades or sizes.

(2) DAC dates of any variety shall at least meet the requirements of U.S. Grade B, except that up to 25 percent, by weight, of the dates may possess semi-dry of dry calyx ends, but not more than 5 percent, by weight, of the dates may possess dry calyx ends. Also, with respect to whole dates of the Deglet Noor variety, the individual dates in the sample from the lot shall weigh at least 6.5 grams, but up to 10 percent, by weight, may weigh less than 6.5 grams, except beginning December 29, 1992, and ending October 31, 1993, the 10 percent tolerance shall be increased to 15 percent. These size requirements are in addition to, and do not supersede, the requirements as to uniformity of size prescribed in the grade standards.

(3) DAC dates of any variety, when packed in plastic containers, other than bags and master shipping containers, shall contain a net weight (i) for whole dates, of either eight ounces, twelve ounces, 1 pound 8 ounces, or two pounds or more, and (ii) for pitted dates, of either seven ounces, ten ounces, one pound, one pound eight ounces, or two pounds or more. DAC dates packed in other than plastic containers may be handled without regard to the net weight content. For the purpose of this subparagraph, "plastic container" means any containers of any shape made from plastic and in which dates are packed without the use of cardboard boats, trays, or other like stiffening material: *Provided*, That DAC dates shipped for sale in Canada in plastic containers are exempt from the

net weight requirements of this subparagraph.

(4) The California Date Administrative Committee may designate with the approval of the Secretary such other types and sizes of containers for testing in connection with a research project conducted by or in cooperation with the Committee. The time period and the quantity of dates which may be marketed by handlers during that period shall be designated by the Committee for each market research project. The handling of each lot of dates in such test containers shall be subject to the prior approval, and under the supervision, of the Committee.

(c) *Dates for further processing.* (1) Except as provided in § 987.152(b)(1), all varieties of FP dates may be disposed of only (i) to persons in the United States capable of processing and packing the dates and having them certified as DAC dates, or (ii) exported to the countries designated in paragraph (d)(2) of this section.

(2) FP dates of any variety shall at least meet the requirements of U.S. Grade B (dry). Also, with respect to whole dates of the Deglet Noor variety, the individual dates in the sample from the lot shall weigh at least 6.5 grams, but up to 10 percent, by weight, may weigh less than 6.5 grams, except beginning December 29, 1992, and ending October 31, 1993, the 10 percent tolerance shall be increased to 15 percent. These size requirements are in addition to, and do not supersede, the requirements as to uniformity of size prescribed in the grade standards.

(d) *Export dates.* (1) Dates of any variety identified as "Export" dates and inspected and certified as meeting the requirements of this subparagraph may only be exported to any country except Canada. Such dates shall at least meet the requirements of U.S. Grade C: *Provided*, That Deglet Noor dates shall score not less than 31 points for character and 24 points for absence of defects but up to 40 percent, by weight, of the dates may be damaged by broken skin.

(2) *Export of dry dates.* Dates of any variety identified and certified as meeting the requirements of this subparagraph only may be exported to the
